

My name is Joshua Walsh and I am a senior at Chelmsford High School. I started my internship in October of 2020 and continued to work until August of 2021. My journey with the Clerk's Office truly started on November 8th, 2016, when I was in 8th grade and signed up to be a student volunteer for the General Election. I was fascinated by our local government after that day. I became a poll worker for the 2020 State Primary and had the opportunity to start my internship shortly after.

During my time in the office, I worked on various different projects and day to day tasks. I helped with election preparation, dog licensing, Census data entry, and digitizing lists of records. I also worked on entering Boards and Committees history, and organizing closets and vaults.

In school I was heavily involved in the CHS Stage Crew, CHSTv, and Marching Band. This fall I will be going to UMass Amherst to study Political Science to gain an even better understanding of the subject area I want to work in.

I would like to thank the Clerk's Office for giving me this opportunity to learn and grow, and for working alongside an amazing group of people. My time interning was truly worthwhile and I can't wait to put the skills I learned to use wherever I may go!
